SUPPLEMENT
REPORT NO.

SOURCE

1. Soviet Airforce Lieutenant Colonel Sergeyev and three Hungarian engineers are in Vienna purchasing on a priority order large quantities of road building equipment from Bahnbedarf A.G. Payment is to be made in schillings. According to Huvos (fnu), the senior of the three Hungarian engineers, the machinery is to be used for the construction of airfields near Budapest and Munkachevo and a highway between these two cities.
2. Sergeyev is negotiating for the purchase of several excavators with a capacity of 0.6 to 1.5 cubic meters; 30 concrete mixers with a minimum capacity of 700 liters; narrow gauge steam locomotives and tippie cars. He is primarily interested in the priority procurement of road scrapers and concrete laying machinery to lay 12 meter-wide strips. Six concrete mixers scheduled for shipment to Captain Kashin* at Chemnitz-Warthau were diverted for immediate shipment by rail to Sergeyev.

25X1A6a [REDACTED] Comment: The fact that the shipment of the machinery for Munkachevo takes priority over the previously scheduled shipment to Captain Kashin of Wismut A.G. may indicate that the new project is of unusual importance .
